PROFESSIONAL SUMMARY

Information Systems student at President University with hands-on experience in ERP systems, business process analysis, and workflow mapping. Experienced in documenting and analyzing end-to-end business processes across procurement, inventory, production, sales, and finance using Epicor ERP. Proficient in creating business process flowcharts and system documentation using Draw.io, Figma, Canva, and other diagramming tools. Strong analytical, problem-solving, and teamwork skills with a passion for business process improvement and digital transformation

EXPERIENCE

ACADEMIC & PERSONAL PROJECT

2024 – Present

System Modeling

- Designed Flowcharts, Gantt Charts, Swimlane Diagrams, Use Case Diagrams, Sequence Diagrams, Class Diagrams, and Mind Maps using Draw.io, Figma, and Canva.
- Developed visual models to represent business processes, system workflows, project timelines, and functional requirements.
- Produced clear and organized documentation to support business analysis, system design, and project planning.

Business Process Mapping

2024 – Present

- Mapped end-to-end ERP business processes across Procurement, MRP, Production, Inventory, Sales, and Finance modules.
 - Analyzed business workflows and documented process flows to improve process visibility and support cross-functional collaboration.
 - Assisted in translating business requirements into structured process maps and workflow documentation for academic ERP projects.
-

EDUCATION

President University | 3.86/4.00
