PROFESSIONAL SUMMARY

Sixth-semester Information Systems student at President University with hands-on experience in Enterprise Resource Planning (ERP), Supply Chain Management, Business Process Analysis, Operations, Inventory Management, Data Administration, Finance Processes, UI/UX Design, and Web Development through academic and personal projects. Skilled in business process mapping, data analysis, system implementation, workflow optimization, and developing digital solutions using Epicor ERP, Accurate Online, Microsoft Excel, Figma, SQL, and web technologies. Strong analytical, problem-solving, communication, and teamwork skills with a strong willingness to learn and contribute in diverse business and technology roles.

EXPERIENCE

ACADEMIC & PERSONAL PROJECT

ERP Business Process Simulation

- Simulated end-to-end business processes using Epicor ERP and Accurate Online.
- Managed procurement, purchasing, inventory, warehouse, production, sales, and finance transactions.
- Performed Purchase Requisition, Purchase Order, Goods Receipt, Sales Order, Production Order, and Inventory Control.
- Created business process documentation and workflow mapping using Draw.io.
- Analyzed business requirements and proposed process improvements.
- Worked collaboratively in cross-functional teams to complete ERP implementation projects.

Information Systems & Web Development Projects

- Developed responsive web applications using HTML, CSS, JavaScript, PHP, and MySQL.
- Created web interfaces based on user and project requirements.
- Applied basic UI/UX principles to improve usability and user experience.
- Participated in testing and improving website functionality.
- Created wireframes, prototypes, and web interfaces based on user and project requirements.

Business Process & System Analysis Projects

- Mapped business workflows using BPMN and flowcharts.
 - Created system documentation, user flows, and process diagrams.
 - Analyzed operational challenges and proposed digital solutions.
 - Collaborated in academic projects involving supply chain, ERP, and information systems.
-
